Parramatta Dental Surgery

Prepared for Michael · Parramatta, Sydney · 1 June 2026

Executive Summary

Parramatta Dental Surgery is technically visible in local search but practically invisible to new patients. A 0.1★ rating is catastrophic for a healthcare business — most people won't click, let alone call. The profile is missing critical information including a website, photos, and business hours, making it impossible for Google to trust or rank this listing competitively. ---

RATING ANALYSIS

What your star rating means

A 0.1★ rating is not just low — it signals to potential patients that something is seriously wrong. Dental patients are high-trust, high-consideration buyers. In a suburb like Parramatta with multiple competing practices, anyone searching "dentist near me" will skip this listing immediately. Even a 3.5★ competitor wins every click. This rating alone is costing real bookings daily. ---

REVIEW ANALYSIS

Review count vs competitors

Without a confirmed review count, the baseline is assumed to be near zero or heavily negative. Most established Parramatta dental practices carry 50–200+ reviews. To become competitive, Parramatta Dental Surgery needs a minimum of 20 legitimate 5★ reviews within 60 days and a consistent velocity of 5–8 new reviews per month ongoing to rebuild trust signals. ---

PROFILE GAPS

What's missing from your profile

These specific elements are missing or unconfirmed: - **Website:** Not linked — Google cannot verify legitimacy - **Business hours:** Not listed — patients can't confirm you're open - **Photos:** None confirmed — no visual trust for a healthcare provider - **Services listed:** No dental services specified in profile - **Description:** Likely absent or incomplete Each gap reduces Google's confidence and patient click-through rate. ---

PRIORITY ACTIONS

The 3 things to fix first

1. **Immediately address the 0.1★ rating** — audit existing reviews, flag any illegitimate ones through Google, and launch a structured review request campaign to current patients via SMS or email within 7 days.
2. **Complete the Google Business Profile fully** — add website URL, correct hours, 10+ real photos, and a keyword-relevant business description mentioning Parramatta and dental services.
3. **Build local citations** — list the business accurately on Healthengine, HotDoc, True Local, Yellow Pages, and 45+ other directories to strengthen local ranking signals. ---

EXPECTED OUTCOME

What to expect in 60 days

Within 60 days, a fully completed profile with 15–25 new genuine reviews could realistically move this listing from near-invisible to appearing in the Google 3-Pack for suburb-level searches. Rating could recover to 3.8–4.2★ with consistent review effort. Enquiry volume improvements are likely but depend on review acquisition speed. No guarantees — but the current baseline means almost any improvement translates directly to more bookings.

If your visibility doesn't improve in 60 days, your next month is free.

We back every engagement with this commitment. We work until the results are real — no wriggle room, no excuses.
