RATING ANALYSIS

What your star rating means

A 0.4★ advantage over competitors means new patients are statistically more likely to choose Parramatta Dental Surgery when ratings are compared side by side. Studies show listings above 4.9★ with sufficient review volume can capture up to 25% more clicks than lower-rated competitors in local search results.

REVIEW ANALYSIS

Review count vs competitors

At 138 reviews versus the competitor average of 200, Parramatta Dental Surgery is 62 reviews behind the benchmark for volume competitiveness. To close this gap within 60 days, the practice needs to generate approximately 10 to 11 new reviews per month, which is roughly 3 per week.

PRIORITY ACTIONS

The 3 things to do first

- 1 Send a personalised SMS or email to every patient within 24 hours of their appointment containing a direct Google review link and a one-line request asking them to share their experience.
- 2 Respond to all 138 existing reviews within the next 7 days, using the patient's first name and mentioning the specific service where possible, to demonstrate active engagement and build trust with prospective patients reading reviews.
- 3 Set a weekly reminder every Monday to log the current review count and calculate the weekly growth rate, flagging immediately if fewer than 3 new reviews are received in any given week so outreach efforts can be adjusted.

EXPECTED OUTCOME

What to expect in 60 days

If 10 to 11 reviews per month are achieved consistently, Parramatta Dental Surgery can reach approximately 158 to 160 reviews within 60 days, closing roughly half the gap to the competitor average. The 5.0★ rating will be maintained only if review request volume is managed carefully to avoid any sudden drop in star score.
